CEMETERY

NOVICE CONVENT

INFIRMARY

Of the Ordering of the
KITCHIN GARDEN.

And first of the Sowing of Pease,

TAKE notice that the earliest sorts are for the most part as hardy, if not more hardy, than the most ordinary Field-Pease, they are sown after the manner of Field-Pease, or, which is most trouble to our purpose, having only a design of laying down rules or directions proper to Gardening; you are to dig your ground, or if it be much, and lye convenient, you may Plough it very well and harrow it, and then you may, as some do, with a kind of a Plough called a Drill (as I think) and one Horse to draw it, make several trenches or gutters about a foot and a half asunder, or less if the ground be not very rich, and about three inches deep, in the which you may sow your Pease, covering them with a Rake. I suppose a quart of ordinary white Pease may sow about a Pole of Ground, or if you sow Pease in some small quantity, as in a private Garden, it will be your best and handiomest way to range a line or two, and with the corner of a Hove to make your trays or gutters about such a distance as aforesaid; the reason of this

THE
English Gardener:

OR, A
Sure guide to young PLANTERS
AND
GARDENERS
In three Parts.

THE FIRST,
Shewing the way and order of Planting and raising all sorts of Stocks, Fruit-trees, and Shrubs, with the divers ways and manners of Ingrafting and Inoculating them in their several seasons, Ordering, and Perfection.
